

**Christopher Smythe-Macaulay** is the founder and President of **Denatro Consulting International, LLC**, a boutique Information Technology (IT) consulting company specializing in program/project management, infrastructure, and operations support for federal, state, and private sector commercial clients.

As a Senior IT Manager with over 18 years of experience managing large scale, highly complex business-critical IT projects and programs, Christopher held roles as a program manager for the Information Technology Services Chief Information Officer (CIO), Network Management, Customer Service Contract at a federal agency, co-founded an internet startup, and held multiple technical roles as a programmer, system admin, and security official at the NASA Goddard Space Flight Center.

This versatile and diverse background in IT and management has given him a unique perspective and keen understanding of the interplay of IT and strategy to deliver business value to his customers.

Christopher earned a Master of Science in Management of Informational Technology from the McIntire School of Commerce at the University of Virginia and has various certifications including PMI PMP, ITILv3 Foundation/ITILv3 Intermediate in IT Service Operations and CSM.
